

Please DO NOT allow LPFM stations to take priority over current FM translator service. We listen to two translator stations, K-Love and AirOne, (100.1 and 90.1 FM in the San Diego area) ALL THE TIME! My teenage son has AirOne on all night long. It is decent, uplifting music which has been a lifeline to all of us. We NEED these two stations in our lives...more than you can ever know! There are no other stations that offer the quality, clean, moral, uplifting round-the-clock music that meets the needs and wants of our two separate generations...K-Love for the adults, AirOne for our teens!! Why would you want to remove this kind of quality radio from the airways to be replaced by possibly more rap and foul-language ones. We need these two "translation" stations to keep broadcasting...PLEASE!!!
